

Veterinary Practice Information

SureFlap is available from the following wholesalers:

Centaur - product code: 30273942

Dunlops - product code: ACCAT 00

NVS - product code: 248514

SureFlap is a selective entry cat flap which learns a cat's identification microchip

The cat's microchip acts as a personalised door key, unlocking SureFlap to provide secure access, keeping other neighbourhood cats out. The owner's home becomes a secure environment, leading to a happier, more relaxed animal.

SureFlap operates with all 15 digit ISO microchips and does not require a cat to wear uncomfortable, restrictive collars or tags.

SureFlap is very simple to use, once the unit is installed and the batteries inserted, the flap can be put into learn mode with the press of a button. The next time a cat passes through the flap, the unique ID code of its microchip is permanently stored in SureFlap's memory. Now SureFlap will unlock whenever that cat puts its head inside the tunnel.

Arrange a product demonstration

To arrange a product demonstration at your practice, please contact your usual Animalcare representative or their head office:

**Animalcare Ltd
Common Road
Dunnington
York
YO19 5RU**

**Tel: 01904 487687
Email: animalcare@animalcare.co.uk**

Customer Support

SureFlap provides comprehensive after-sales support and our customer care team will be happy to help your customers get up and running as quickly as possible. Our friendly representatives can also assist you with any ongoing product-related queries and supply spare parts and replacements, where necessary.

You can contact our customer care team by phone or email:

**Tel: 01234 227158
Email: sureflap@btbmf.co.uk**

Promotional materials

Animalcare also supply SureFlap promotional materials for use in your practice free of charge. These materials include posters and information leaflets for your customers to read or take away. Please use the above contact details to order an initial set or refills.
